

"Well it seems like this should have been written way back. But due to a life full of things to do I have just now finally found some time to write a quick "Thank you" to Mark from Clover Cars.

This past April my sister got married and based on the wonderful service we received for my parents 50th a couple of years back it was not hard to decide to hire the services of Clover Cars once again. Mark you were amazing. In the worst rain in 100 years in April I was almost expecting you to be a tad late due to the washed out roads. But bang on time I watched as your beautiful car glided into the grounds of Great Fosters. There was no rush and you were without question a total delight.

I urge anyone who requires the services of a beautiful car for their special day to not even look else where. Stop right here and book this wonderful company. I have twice and now my friend is booking Clover Cars next April for her wedding. If you have no wedding coming up there are endless reasons to use this wonderful companies services. Invent one if you have to.

I found Clover Cars via Google. I personally live in Canada, if anyone would like to speak to me personally for a verbal ref I am happy to phone you. Just contact Mark and he can forward your number to me.

Thank you, thank you, thank you for your amazing service. You played a huge part in the memory for both my parents day and my sisters and her new husband. We will use you every chance we get and hope that everyone reading this will too.

My sincere regards.
